Please draw your worktop requirements below including all widths and lengths. These should include locations of hob, cooker, sink, tap holes and any other cut-outs including round pipework, corners, etc. Please mark clearly on the drawing the legend for all polished edges, upstand and splashback (see 'Ordering Help' on website for explaination). Where possible, please specify on the drawing where edges meet tall units or tall appliances. All joints are positioned at the discretion of our fabricators. Please view our website for full Terms & Conditions
